Summary

Senior Automotive Engineer with 5+ years of specialized expertise in In-Vehicle Infotainment (IVI) and Telematics. Currently driving system integration onsite for the BMW Group, bridging Telematics Control Units (TCU), Head Unit(HU) architecture, Clusters and OTA updates to deliver premium connected vehicle features.

Technical Skills

Diagnostics & Protocols: UDS (ISO 14229), DoIP (ISO 13400), OBD

In-Vehicle Networks: CAN, CAN-FD, LIN, FlexRay, Automotive Ethernet, VLAN, TCP, UDP, SOME/IP

Standards & Security: ISO 26262, MACsec, IPsec

Testing & Validation: HIL & SIL, Vehicle / In-Car Testing, Vehicle E/E Systems, Root Cause Analysis, Defect Management, ECU Resident Engineering

EXPERIENCE

L&T Technology Services

Jun 2023 – Present

Senior Engineer

Munich, Germany

- Lead the onsite engineering team at the BMW plant to deliver high-quality technical support, and system integration.
- Serve as the primary point of contact to drive alignment between BMW, external suppliers, development teams, functional owners, and mainstream leads.
- Defining and maintaining feature planning, system architecture, requirements, test planning, and defect tracking across all development phases.
- Involved in root cause analysis and debugging for System functions and basic functions, including **Flashing, Coding, Diagnostics, RSU, OTA, Life-Cycle (Suspend to Resume-STR), Health, Time-Manager, Log-Trace, System Infrastructure, System Engineering, Current Consumption, Wi-Fi, Bluetooth and V2X.**
- Experienced in ECU function development, using **UDS- ISO 14229 and DoIP -ISO 13400 protocols**, ensuring robust diagnostics across **CAN, CAN-FD, LIN, FlexRay, and Ethernet network protocol**
- Appointed as a Resident Engineer representing the supplier to drive technical support at the BMW plant and Headquarters.
- Previously held full responsibility for in-vehicle verification and validation, utilizing specialized testing platforms, including FlashLAB, LABCAR, BBG, KSP, and both HIL & SIL test benches, to drive ECU testing across all development phases up to official product releases.

L&T Technology Services

Mar 2021 – May 2023

Engineer

Mumbai, India

- Validated requirements and High-Level & Low level Functionalities.
- Verified software releases and executed domain tests for infotainment ECUs, including Head Units and Instrument Clusters to meet client requirements and enhance system stability.
- Responsible for defect logging & end-to-end tracking across all infotainment modules throughout different development phases using Jira and ALM Octane platforms.

UBISOFT ENTERTAINMENT

Jul 2019 – Feb. 2021

Quality Assurance Tester

Pune, India

- Worked as a Quality Assurance Tester for AAA title games, leading tasks and coordinating with the assigned team.
- Actively performed Smoke, Stress, Regression, Functional, Compatibility and Ad-HOC Testing on every new build.

- Responsibilities included isolating bugs by identifying accurate reproduction steps, classifying them based on severity and priority, and ensuring thorough testing to maintain application quality
- Participated in testing across various environments, including PS4, PS5, Xbox, PC, and Nintendo.
- Conducted Positive and Negative Testing, as well as End-to-End testing.

Awards & Recognition

Project of the Year BMW Group, 2025: Received customer recognition for leading the team and successfully delivering a key infotainment and telematics integration project from concept to production.

L&T Technology Services: 3 Star of the Month, 2 Spot Awards, and multiple Recognition Awards for technical leadership, on-time project delivery, rapid issue resolution, and strong collaboration across teams.

Internship

AERUS INFOTECH

- Worked as an intern at Aerus Infotech, gaining foundational knowledge in web development, Learned HTML and CSS, and utilized the Bootstrap framework to create basic web templates. As part of the internship, developed the front-end of a photography portfolio website using these tools and technologies.

Certifications

ISTQB Certified Tester Foundation Level (CTFL) v4.0 Certification.

Tools

Network & Bus Analysis: Vector CANoE, Wireshark, PCAP, CAN-Analyzer, DLT Viewer, PCAN-View

Capture Hardware: Ethernet / Capture Modules (ETH Combo, CM100, CM1000)

Diagnostics & ECU Tools: E-SYS, EDIABAS, TOOL32, TOOL64, Zedis, Carmen, Xoraya, Codecraft

Test Automation & Benches: ECU-Test (Test Automation Framework), AMTS (SP25), BAT, FAT (SP21)

Terminals & Remote Access: PuTTY, WinSCP, MobaXterm, TeraTerm

Development & Collaboration: Visual Studio, GitHub, JFrog, JIRA, ALM Octane, Confluence

Root Cause Analysis: Fishbone Diagram

EDUCATION

RAMRAO ADIK INSTITUTE OF TECHNOLOGY, MUMBAI UNIVERSITY.

Bachelor of engineering information technology

Jul. 2015 – May 2019

Navi Mumbai

V.G. VAZE COLLEGE OF ARTS, SCIENCE AND COMMERCE College.

Higher Secondary School Certificate

Jul. 2013 – May 2015

Mumbai
